FOREST FIRE WARDEN'S REPORT

Since the hurricane, nearly 900,000 acres of slash have been added to our already sizeable slash problem. If we are to avoid unnecessary trouble with fire in our woodland areas everyone must cooperate.

You must secure the required permit from your forest fire warden before burning.

You must use necessary precautions while burning.

You must not throw lighted cigars, cigarettes and matches from vehicles.

Number of local fires	5
Number of acres burned	3½
Number of permits issued	13

I wish to thank the people of Warner for the fine cooperation the past year on fire prevention.

MAURICE F. RANDALL,

Forest Fire Warden

During the past year, I have heard some talk of a new proposed highway to by-pass the center of town. My understanding is that, if this proposed road went through, it would take most of the playground area of the grade school. If this occurs, it will create a serious situation for Warner. As you all know, the building is not big enough to hold all the elementary (grades 1-6) pupils now.

The census report lists the following children in town as of September 1, 1952: Less than one year old — 23; one year — 19; two years — 15; three years — 31; four years — 28; five years — 23; 6 years — 14; seven years — 14. The previous figures certainly do not indicate that the school population is decreasing. We will face congested conditions in the school for some time unless some shift in population takes place that we are unable to predict at this time.

Present construction costs are high and Warner has a comparatively small assessed valuation which can be taxed to raise money for new construction. Towns have been permitted to bond up to 5% of the assessed valuation for construction which, for Warner, would mean about $62,-000. By gaining permission of a special legislative committee the town could bond up to $100,000 — 8% of the valuation. Anything over that would have to be by a special act of the Legislature. Fixing the cost of a class room between fifteen and twenty-five thousand dollars, makes the margin pretty thin. It is no secret that Hopkinton had to have a special act in the Legislature in order to construct their new building in spite of the fact that they had a Capital Reserve Fund.

I am not suggesting that Warner should construct a new building. That is something for the people in Warner to decide. I do suggest, if the people in Warner are going to discuss new construction, as some people have, that a serious study of the situation be made by the people of Warner. New schools cost too much for people not to know exactly what their education needs are now and what they probably will be ten years, twenty years or forty years from now. Whether you need a new grade school or a high school, whether you want to combine with another school district, or whether you want to do nothing about the situation, we cannot make wise decisions without knowing the facts in the case.

There is one change that should be made in Warner and that is the combination of the Simonds High School District and the Elementary School District. Some years ago a start was actually made to combine the districts. The plan was to elect the same member to both boards each year until the boards were the same. However, after one year some one raised the question of legality and the plan was never completed.

At the time the Simonds Prudential Committee was set up there were many different elementary districts in Warner, each administered by their own board. At one time there was as many as twenty-four elementary school districts in Warner so the Prudential Committee was a necessity. Now that there is only one elementary board, it is entirely feasible to combine the two boards and districts.

Franklin Simonds, in his bequest to Warner, left enough money to build a building (construction cost approximately $9000.) and, as he thought, enough money to pay for the entire cost of operation. High School education would,

in fact, be free to the people of Warner. It did for a while pay for the operation of the school but today, of course, the trust funds (about $1200) pay for only a very small fraction of the cost, so that there is no fear that surplus money will be used to pay for elementary education. I have read the will of Franklin Simonds and I have talked with members of the Trustees of the Simonds Fund and there is no legal obstacle to prevent the two districts uniting.

There are distinct advantages for combining the two districts. It would save some expense and would be much more efficient. We can no longer separate the two districts. The educational problems of the two districts must be met by the same people who are taxed to support the educational program. The Board Members must know the whole educational picture in order to solve these problems.

Henniker has exactly the same situation as Warner but has only the one Board. Mr. Cogswell built Henniker High School and provided funds to help maintain the building. The Trustees pay the income of the funds to the School Board who pay it out in accordance with the provision of the Trust. The money must be used to make repairs on improvements to the building and to aid in paying for a specific course. As in Warner, inflation has reduced the effect of the Trust Fund although it is still a help in maintaining their educational program.

Our present accounting system permits the separation of high school and elementary costs. Moreover, in order to qualify for State Aid and to set our tuition fees, these costs have to be kept separate. This is done in Hopkinton and Henniker and can be done here in Warner.

If the decision is to combine the two districts and have a regular three member board, it can be done in several different ways. One way would be not to elect any one this year and thereafter, elect one new member. You would have a four member board the first year and thereafter, a three member board.

Things have been going very satisfactorily in the schools, and we have had only one change in the teaching staff this year. Mr. Warren Adams joined the school as teacher of Social Studies.

It has been a good year and I have enjoyed my work. I am sorry, with so many board meetings, etc., that I do not have a chance to enter into the social life of the community.
